Additional Comments:

Estimated ship date is 2 to 6 weeks depending on the product from the date funds are received. Due to the fact that each sign is customized, Outdoor Signs America does not accept returns. Cancelled orders incur a fee depending on the stage of completion. Freight charges include curbside delivery. Customer is responsible for unloading, uncrating, permitting and installation of the sign.

Payment Options: For most orders full payment is required before production.

Check: If paying by check, please mail payment to address shown above, payable to the order of: **Outdoor Signs America.**

Credit Card: For secure credit card processing please call and we will take your information and process the card.

Purchase orders: Public schools or other government organizations that utilize purchase orders should fax their PO to 1-205-755-1516 with a copy of this order form.

✓ **Impact Resistant!**

✓ **Lifetime Warranty!**

✓ **Easy to Change!**

✓ **Locking Vandal Cover!**

✓ **Graffiti Resistant!**

✓ **Crisp, Clear Graphics!**

Thank you for requesting a price quotation from Outdoor Signs America. We are certain that you will find our product to be the highest quality available in the marketplace today — and more importantly, available to you at a reasonable price!

Our products are manufactured using top quality material and a hand-crafted process in the USA. Your new message center offers several features and benefits that you should be fully aware of when shopping for a new sign to represent your organization. After all, your new sign is a key part of your marketing and/or communication strategy and should be built to last for many years!

IMPACT RESISTANT SIGN FACES WITH A LIFETIME WARRANTY!

Sign faces can be made from different grades or types of polycarbonates. While very few sign manufacturers utilize a material that will last for decades, every sign face from Outdoor Signs America is manufactured using **GE Lexan® SGC 100**. We're so confident in our **GE Lexan® SGC 100** sign faces that we cover every sign face with a **Lifetime Warranty** (*includes breakage due to vandalism, excluding gunshots*). Should someone break your sign faces, Outdoor Signs American will send replacement faces free of charge!

HIGHEST QUALITY, GRAFFITI RESISTENT SIGN FINISH!

Your new sign is protected with the **highest quality** finish available; a long-lasting, high gloss, durable powder-coat paint from DuPont that never **fades, chips, cracks, or peels!** This state-of-the-art powder-coat finish on a sturdy aluminum cabinet makes Outdoor Signs America's sign unequal in terms of durability, lasting appearance and offers a graffiti resistant finish (*graffiti is easily removed using common household chemicals*).

PROTECT YOUR MESSAGE WITH A VANDAL COVER!

Outdoor Signs America also provides an optional safeguard to your changeable copy area by providing a locking Vandal Cover. Every Vandal Cover is made using the same quality **GE Lexan® SGC 100** found in our sign faces. Each vandal cover is hinged at the top with locks at the bottom, opening to a full 90 degrees providing easy access to your message center.

CRISP GRAPHICS THAT LAST FOR YEARS!

Outdoor Signs America provides laser sharp graphics that won't fade or appear discolored when your sign is illuminated. This is achieved by applying high performance **3M®** vinyl to the inside surface of each sign face. Most signs are designed using painted graphics - which we consider unacceptable. Painted graphic panels will fade, and do not provide an even distribution of color when your sign is illuminated. The use of high performance **3M®** vinyl for the graphics on your sign is essential, and ensures that the color we provide on your sign will be the same color many, many years into the future.

We appreciate the opportunity to serve your needs and provide you with the very best product available in the sign market today. Please contact Tanya Lowery at 1-800-239-9990 Ext 4 with any questions or to place your order.

CENTER VOLUNTEER FIRE DEPARTMENT Mocksville, NC

Local Boy Scout Ignites Community Interest

The text inside the scouting handbook outlining the leadership prerequisite required for the coveted rank of Eagle Scout could not have been clearer: "...*plan, develop, and give leadership to others in a service project helpful to your community*".

Realizing how a permanent, high-quality marquee sign in front of the fire house would indeed serve his community of Mocksville, North Carolina, Travis got to work. He had already a connection to the Center Volunteer Fire Department. His father was the fire chief of the Center Volunteer Fire Department, so he had already an emotional connection with the building, the firefighters, as well as to people of Mocksville. Since he could crawl Travis has been a fixture around the facility.

"The firefighters had, for a long time, wanted a permanent sign in front of the building. They even had a small amount of money already raised and earmarked for it", says Travis. "When I began thinking about an Eagle Scout project, many ideas popped into my mind. Eventually, the sign project became the only real choice because it was *my* firehouse".

Always "prepared", Eagle Scout candidate Travis took the fire department's sign fundraising under his wing. In the meantime, he went sign shopping.

"Outdoor Signs America made it easy for us", recounts Travis. "Plus, they came in the least expensive. Later on, after the sign arrived, when I had to call them with some installation questions, they immediately remembered who I was!" brags Travis.

"Even more important, the firefighters really love their new sign. Outdoor Signs America was the only real choice".
